certification**

## MODEX® A GLANCE

Modex is an EFFAS accredited exam aimed at students or professionals looking for a financial modelling specific qualification. The Modex is offered at Intro & Expert levels, this last one being sector specific (Private Equity or Real Estate).

The Modex is a challenging 2-hour exam designed and marked by professionals through a rigorous scoring system to ensure that all the exams are accurate.

Successful candidates may obtain the EFFAS Diploma as:

- Certified Junior Financial Modeller (MODEX Intro).
- Certified Financial Modelling Expert in the Private Equity sector (MODEX Expert PE).
- Certified Financial Modelling Expert in the Real Estate sector (MODEX Expert RE).

The certification is well recognized by employers from reputed financial institutions. Upon consent of the successful candidate, their name will be entered into a public database for potential recruiters.

## HOW TO BECOME A CERTIFIED JUNIOR FINANCIAL MODELLER / FINANCIAL MODELLING EXPERT IN PRIVATE EQUITY OR REAL ESTATE.

### 1 Modex preparation:

There is no mandatory training or prerequisites to take the Modex exams and demonstrate modelling proficiency, independently of where or how this skill was acquired.

However, for those candidates with little or no modelling experience, EFFAS offers the Modelandum online training courses to prepare the Modex exams.

### 2 Modex registration:

Register for the Modex exam or the training offers.  
Choose the examination date.  
Make the payment of the selected product (115EUR Junior financial Modeller and 225 EUR Financial Modelling Expert).

### 3 Modex/EFFAS Certification:

Take the 2-hour exam on your computer (online or in person in Madrid) on the selected date.  
Pass the exam with a higher score than 50%.  
Successful candidates will be certified by Modex/EFFAs and upon signed consent will be able to be part of the Modex database for recruiters, moving to the top of the list in the hiring pipeline.
